Beberapa simulator kami yang tersedia:

Simulator lainnya: Harvester Simulator, Forwarder Simulator, Quality Control Simulator, Electric Jumbo Drill Simulator, Off Highway Truck Simulator, Skid Steer Simulator, Wheel Loader Simulator, Reach In Forklift Simulator.

Hubungi kami jika ada simulator lain yang anda perlukan.

Contoh

Fakta Studi Kasus Project: Forklift Simulator

PT. Toyota Motors Manufacturing Indonesia sudah menggunakan simulator forklift sejak 2020. Forklift Simulator digunakan untuk menggantikan proses pelatihan tradisional yang dilakukan oleh divisi logistik. Beberapa manfaat yang didapatkan dengan menggunakan simulator forklift:

- Menjaga safety ketika berlatih dan mengurangi resiko kecelakaan
- Melakukan tracking kemampuan personel secara detail dan tercatat
- Mampu mengurangi biaya pelatihan (sewa forklift, bahan bakar, intangibles, dan sebagainya)
